

MPMM  **TM**

A Project Management Methodology

that drives your projects towards success...

Dear Customer

Thank you for downloading this brochure which tells you more about MPMM™.

MPMM is a best practice project management methodology which helps you to drive your projects towards success. It gives you a clear project **roadmap**, setting out the route you need to take to finish projects on time and within budget.

By using this methodology to steer you in the right direction, you will know exactly *what* you have to do, *how* to do it and *when*. Whether you're a novice or an expert, it helps you keep projects on track with no detours!

MPMM provides the perfect roadmap as it describes in depth, how to complete each and every step in the Project Lifecycle. Whether you're a project manager, team member, consultant, trainer or student, you can use this roadmap to keep projects on track.

Read on to find out how you can use MPMM to deliver projects more easily than before.

A Roadmap for Success...

It's a well known fact that most projects veer off the track at some point. In fact the Standish Group say that up to 84% of projects fail to meet customer needs.

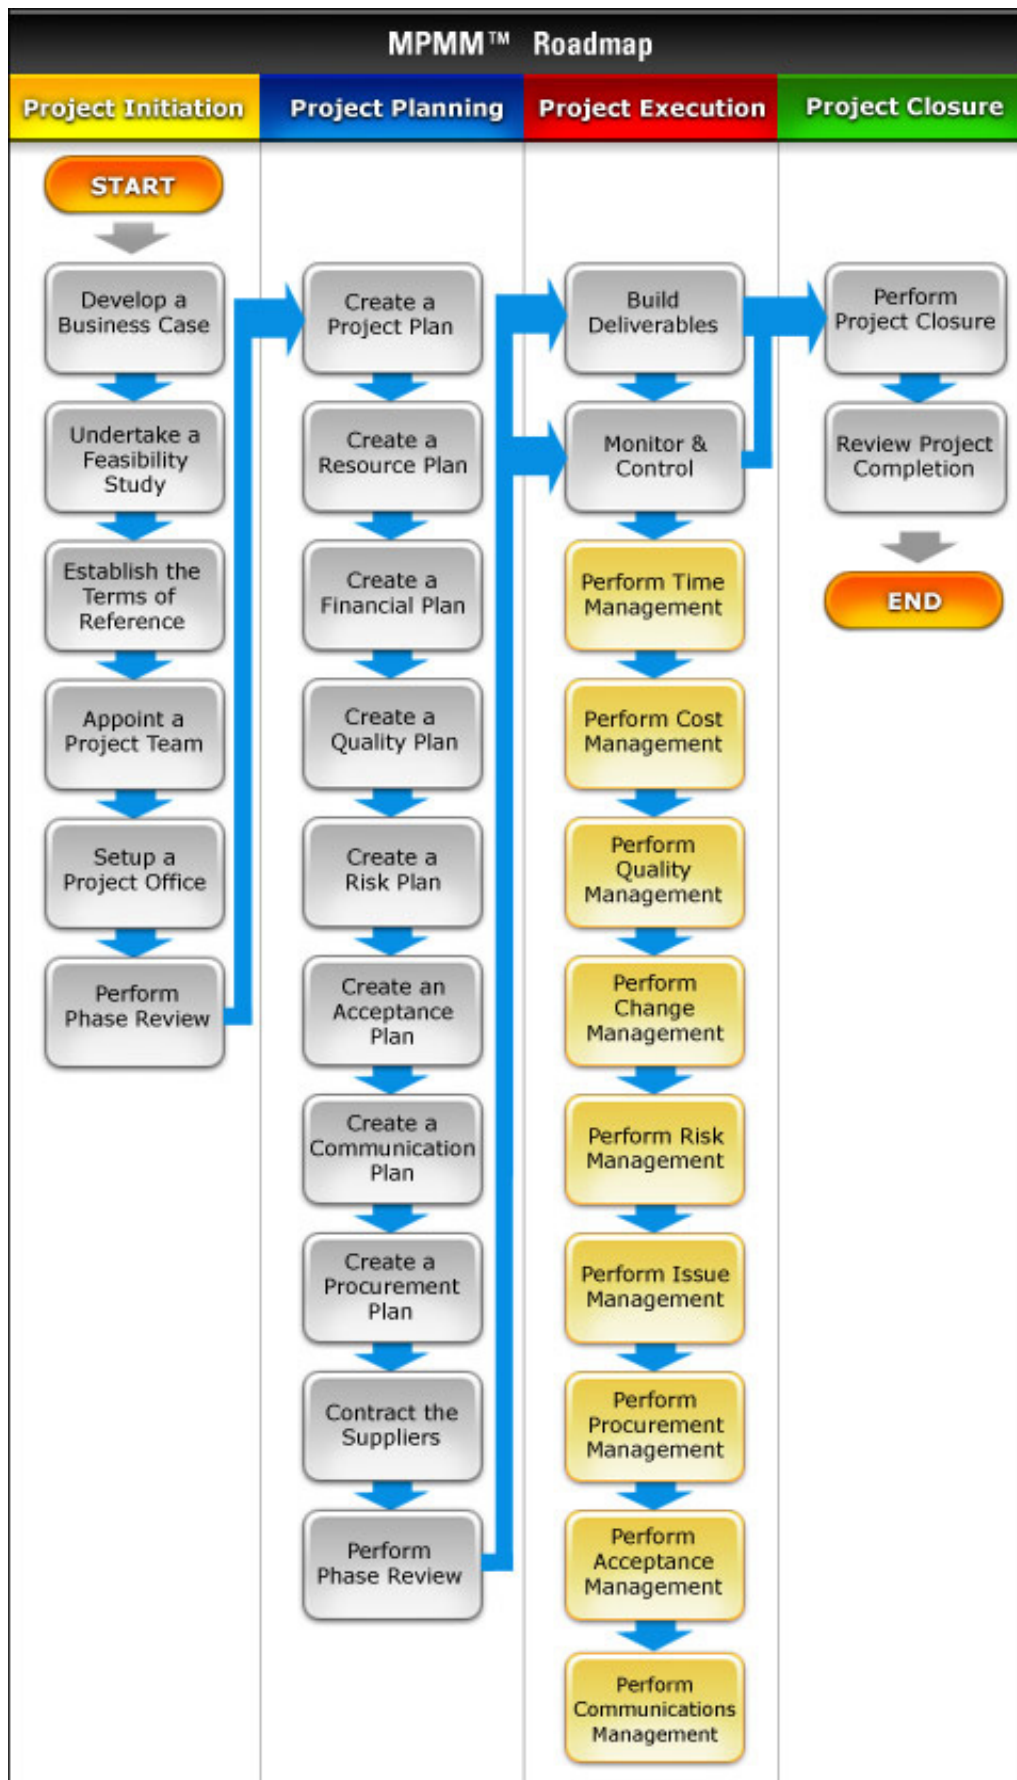

So why is it so hard to stay on-track?

There are lots of reasons, such as poor sponsorship, reporting and communications. But the number one reason is that Project Managers often fail to set a clear direction for the project. Without a clear direction, their projects suffer scope creep, cost overruns and delays.

How can you avoid this?

The answer is simple; use a project management **methodology** to set a clear direction ahead. An effective Methodology will give you a "roadmap" for delivering your project, as it guides you towards your target destination and it tells you what you need to do to achieve it.

MPMM provides such a roadmap, by describing all of the steps you need to take to deliver your projects successfully.

By completing each of the steps in the roadmap, you'll be able to:

- ✓ Initiate and plan projects more quickly
- ✓ Monitor and control projects effectively
- ✓ Minimize change, risks and issues
- ✓ Manage staff, customers and suppliers
- ✓ Deliver projects faster than ever before.

Steering you in the Right Direction...

Along with giving you a clear roadmap for delivering your project, MPMM also *steers you in the right direction* along the way. It does this by telling you how to complete each step in the journey as you reach it.

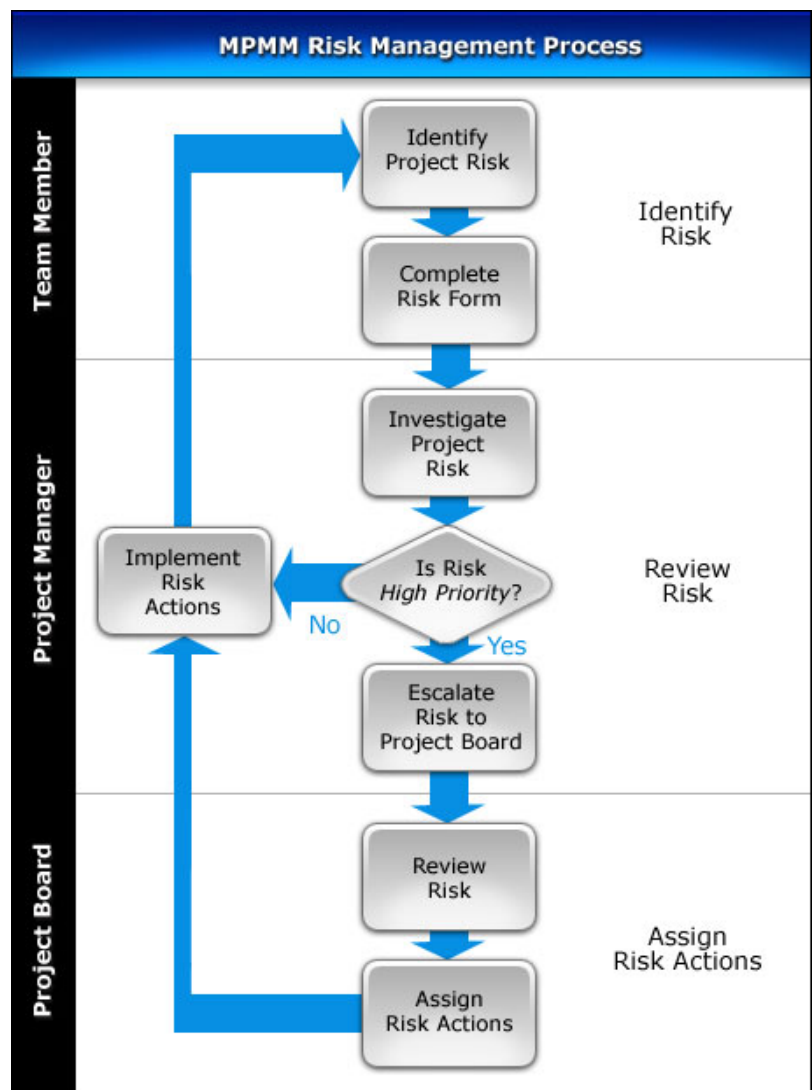

Whether you need to:

- Manage risk; or
- Control scope; or
- Report progress

MPMM describes in depth how to complete every project management task efficiently.

More than 1000 pages, tables, charts & examples help you complete your project quickly.

Knowing *what* to do and *how* to do it, is critical to delivering a project successfully.

A more Enjoyable Journey...

As well as offering a *clear roadmap* for delivering your project and *steering you in the right direction*, MPMM also helps you to have a much more enjoyable project journey.

Delivering a project doesn't have to be stressful. With the right methodology and the right tools to help you pave the way, you can make it a fun and enjoyable experience.

The trick is to have a clear view of what needs to be achieved and how to achieve it. If everyone in your team knows exactly what they need to do by using this methodology, then it will become a far more exciting venture.

By using MPMM, you will:

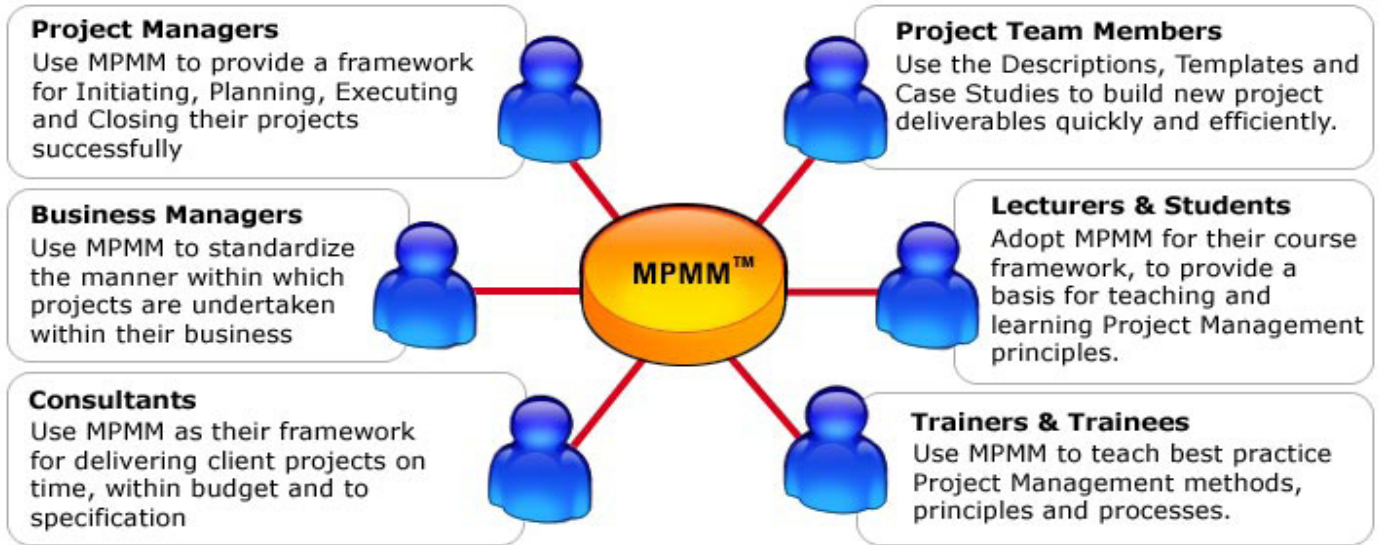

- ✓ **Reduce stress** when managing projects
- ✓ Make your projects far more **enjoyable**
- ✓ Be able to **learn** from every project experience
- ✓ Become a more **knowledgeable** Project Manager.

Project Management made easy!

MPMM does all of this by giving you a powerful toolset at your fingertips. After downloading and installing it on your PC, you can immediately access the roadmap and 1000+ content pages, charts, tables and practical examples to show you the way.
